

APPLICATION REPORT

CORNELL UNIVERSITY

ITHACA, NEW YORK

QUOTE:

"TISCOR's FM system saves us between 20 and 30 hours per week in manpower by eliminating our manual data-entry process. Using Symbol Technologies' hand-held computers with FM is definitely the way to go."

- **Clayton Bronson**, Cornell University Supervisor, Extinguisher-Detector Program

CORNELL UNIVERSITY PARTICIPATED AS TISCOR'S TEST SITE WHEN FIRST INTEGRATING THE SYSTEM WITH SYMBOL® TECHNOLOGIES' POCKET PC DEVICES.

PROFILE:

- ▶ 11.504 Employees
- ▶ 59 Safety Employees
- ▶ 40.000 Pieces of Safety Equipment
- ▶ 740 Buildings
- ▶ 18,704,349 Square Feet
- ▶ TISCOR customer since 1995

PRODUCT BENEFITS:

- ▶ Most of the university's inspections using TISCOR's system cover safety equipment such as sprinklers, extinguishers, FACP's.
- ▶ Mr. Bronson relies on the system for producing reports. These reports regularly help the university prove compliance and pass its annual Authority Having Jurisdiction (AHJ) inspections.
- ▶ TISCOR's customer support department is very responsive and helpful to the Cornell University staff.

▶ TISCOR's system empowers the safety staff at Cornell University with the manageability to efficiently track and find information.

▶ Cornell's system was up and running in one week. During the system's first year in operation, the facility added 9,000 pieces of equipment to its inspection database.

▶ Since the university saves 25-30 hours in manpower each week through TISCOR's system, it is clear that the system has "paid for itself."
