

inspect & Track

InspectNTrack is a web-based equipment management and inspection solution. The Starter package is an entry level package designed to track inspection dates for Equipment that require regular inspection intervals.

With InspectNTrack you can:

- Create Technicians.
- Create Equipment Types.
- Maintain Equipment/Location Records.
- Create and assign tasks and task intervals associated with Equipment.
- Run/print a History Report, displaying the work that has been completed.
- Run/print a report displaying Equipment that have missed inspections.
- Run/print a report displaying the last time an inspection was performed on Equipment.

InspectNTrack Starter can be used for:

- Facility Safety Inspections
- Property Inspections
- Laboratory Inspections
- Janitorial Inspections
- Playground equipment inspections
- Dorm Room Inspections
- And much more!

Package Pricing & Subscription Fees

One-time Start-up Fee	\$1995
