

Product Marketing Bulletin

May 13, 2008

Type of Notification: Software End-of-Life, End-of Support

Software Affected: TourWatch 32-bit

Overview

The purpose of this Product Marketing Bulletin is to communicate the End-of-Life and End-of-Support on the TourWatch 32-bit software program. This does not apply to the TourWatch XT product.

TourWatch 32

TourWatch 32 will be EOL immediately, meaning that we will no longer sell the software. TISCOR is also ending support on the software. Technical support on the product will end on **July 31, 2008**. If upgrading, the remaining support contract will be transferred to the upgraded version. Please note that this EOL notice does not impact a customer's right or ability to use the software, it only applies to the availability of technical support for the product and devices associated with it.

Upgrade Path

For those customers who choose to upgrade, TourWatch XT works with a variety of hand-held devices. Due to the EOL on the software, it will be necessary to upgrade the hand-held devices as well as the software. Available devices:

Laserlite

Laserlite Pro

PulseStar

CN2

MC9090

MC70

For more information on upgrading, please contact your TISCOR sales representative by phone at 800.227.6379 or by email at tiscor_sales@tiscor.com
