

APPLICATION REPORT

UNIVERSITY OF MARYLAND

COLLEGE PARK, MD

QUOTE:

"The expanded functions of the new handheld devices have allowed us to handle more of our regular duties in the field, Internet and email access in the field facilitates overall work and scheduling. To date TISCOR has more than met our expectations, especially with the new products."

William J. Corrigan
Manager, Life Safety Systems

PROFILE:

- ▶ 8 Life Safety Employees
- ▶ 9 Symbol MC-50 Pocket PC devices
- ▶ 20 routes, soon to expand to 45
- ▶ 238 Buildings, 18 million sq. ft.
- ▶ 17,900 pieces of equipment.
- ▶ TISCOR customer since 1995

PRODUCT BENEFITS:

- ▶ **Save time, increase productivity**
"Prior to using TISCOR, we tracked our fire extinguisher inspections with paper records. Since implementing the TISCOR system, data entry and filing time have been greatly reduced. No longer relying on paper records greatly improved our staff productivity, and ease of retrieving history records. We easily save several hours per inspector per week."
- ▶ **Flexible, comprehensive solution**
"We needed a solution to better track inspection records for fire extinguishers. The system is now being expanded to handle fire alarm testing and inspections, fire pumps, fire hydrants and sprinkler systems."
- ▶ **Effective Management reporting**
"Our management staff is very satisfied with the reports that TISCOR software offers. It is allowing us to better document the tasks we perform and help us better comply with NFPA."
- ▶ **Automates and error-proofs data collection with new Pocket PCs**
Portable, handheld computers with built-in scanners instantly capture data and images. Scan 1D and 2D barcodes from 4 inches to 40 inches. Other ruggedized, durable, lightweight, industrial grade devices are also available.
