

MEDIMIZER X3™

Product Marketing Bulletin

August 3, 2010

Type of Notification: Platform Support
Software Affected: MediMizer X3, Version 13.3

Overview

The purpose of this Product Marketing Bulletin is to communicate the change in platform support for the MediMizer X3 software program.

MediMizer Version 13.3

With the forthcoming release of MediMizer Version 13.3 on October 1, 2010, support for the Windows® 2000 operating system will be phased out. The following will be supported:

- Windows XP SP2/SP3, Windows 2003, Windows 7
- SQL Server 2000, 2005, 2008, 2008 R2, including MSDE and SQL Express
- Both 32-bit and 64-bit versions of Windows 2003, Windows 2008, and Windows 7.

MediMizer X3 customers with current support contracts will receive version 13.3 free of charge. Prior to installing the new version, verify that current platforms meet the recommended support requirements.

For additional information, contact TISCOR at 858.524.7700 or 800.227.6379.
